DEVBHOOMI TEMPLE FOLWERS REPROCCSSING PROJECT

1. **Identification of Safety Aspects**

a. Workplace Safety

- **Hazard Identification:**
  - ❖ Moving machinery (e.g., conveyor belts, assembly lines).
  - ❖ Electrical hazards (e.g., exposed wires, faulty equipment).
  - ❖ Slippery or uneven floors.
- **Control Measures:**
  - ❖ Guardrails and safety barriers.
  - ❖ Regular maintenance and inspections.
  - ❖ Clear signage for hazards.

b. Fire Safety

- **Hazard Identification:**
  - ❖ Flammable materials (e.g., lubricants, packaging).
  - ❖ Overloaded electrical circuits.
- **Control Measures:**
  - ❖ Fire extinguishers and alarms.
  - ❖ Emergency exits and evacuation plans.

c. Chemical Safety

- **Hazard Identification:**
  - ❖ Handling of hazardous substances (e.g., cleaning agents, solvents).
  - ❖ Risk of spills or leaks.
- **Control Measures:**
  - ❖ Proper labeling and storage of chemicals.
  - ❖ Use of spill kits and secondary containment.

d. PPE Requirements

- **Hazard Identification:**
  - ❖ Exposure to noise, dust, or sharp objects.
- **Control Measures:**
  - ❖ Mandatory use of PPE (e.g., gloves, helmets, safety glasses, earplugs).

e. Ergonomic Safety

- **Hazard Identification:** Repetitive tasks or awkward postures.
- **Control Measures:**
  - ❖ Adjustable workstations.
  - ❖ Training on proper lifting techniques.

f. Emergency Preparedness

- **Hazard Identification:**
  - ❖ Natural disasters (e.g., earthquakes, floods).
  - ❖ Workplace incidents (e.g., injuries, equipment failure).
- **Control Measures:**
  - ❖ Mock drills and emergency response plans.
  - ❖ Designated assembly points.

2. **Communication Plan**

a. Internal Communication (Employees and Contract Workers)

DEVBHOOMI TEMPLE FOLWERS REPROCCSSING PROJECT

I. **Safety Inductions:**
   - Conduct during onboarding for all employees and contract workers.

II. **Regular Meetings:**
   - Weekly toolbox talks to discuss safety updates.

III. **Signage and Posters:**
   - Display safety instructions and hazard warnings at prominent locations.

IV. **Digital Channels:**
   - Use emails or apps for safety alerts and updates.

V. **Training Programs:**
   - Schedule regular training sessions on PPE usage, emergency response, and hazard awareness.

b. External Communication (Supply Chain Partners)

I. **Contractual Agreements:**
   - Include safety requirements and compliance clauses in contracts.

II. **Periodic Meetings:**
   - Organize safety briefings with suppliers and logistics teams.

III. **Safety Audits:**
   - Conduct joint safety audits with supply chain partners.

IV. **Information Sharing:**
   - Share safety policies, procedures, and incident reports for learning and improvement.

3. Monitoring and Feedback

I. **Safety Observations:**
   - Record and review unsafe behaviors or conditions.

II. **Incident Reporting:**
   - Establish a system for reporting and analyzing near-misses and accidents.

III. **Feedback Mechanisms:**
   - Encourage employees, contract workers, and partners to provide suggestions for safety improvements.

4. Tools for Effective Communication

I. **Safety Manuals:** Distribute detailed safety guidelines.

II. **Checklists:** Use for daily safety inspections.

III. **Notice Boards:** Update regularly with safety messages.

IV. **Mobile Apps:** Utilize apps for real-time safety alerts and updates.
