DEVBHOOMI TEMPLE FLOWERS REPROCCSSING PROJECT

Doc. No. DTFRPL\QMS	Issue No. - 01	Revision No. - 00	Date -

QUALITY PLAN: QUALITY REQUIREMENTS

Quality Aspect	Specifications	Targets	Responsible Department
1. Raw Material Quality	Must meet supplier CoA (Certificate of Analysis), ISO standards, free from contamination	100%compliance before acceptance	Purchase/ Quality Control
2. Process Control	Adherence to SOPs for water treatment	Zero deviation from approved process	Production / Quality Assurance
3. Dimensional Accuracy	As per customer drawings, tolerance ± 0.2 mm (or as specified)	98% First-Pass Yield	Production / QC Lab
4.Surface Finish	Free from cracks, bubbles, blisters, sharp edges	100% visual acceptance	Quality Control
5. Strength & Durability	Mechanical properties (tensile, elongation, hardness) as per ISO requirements	Meet or exceed standard test results	Quality Control / Testing Lab
6.Packaging Quality	properly labeled, and damage-free during handling	100% compliance	Warehouse / Dispatch
7.Delivery Performance	On-time, in-full, error-free documentation	≥ 95% OTIF (On-Time In-Full)	Dispatch / Logistics
8.Customer Complaints	Prompt response, root cause analysis, and corrective action	≤ 1% of sales orders per quarter	Quality / Customer Service
9. Continuous Improvement	Kaizen, waste reduction, training programs, defect analysis	At least 2 improvement projects per quarter	Management / All Departments

10. Calibration & Equipment	All measuring instruments and testing equipment calibrated as per schedule	100% compliance	Quality Assurance / Maintenance
11. Health, Safety & Compliance	Products manufactured in compliance with safety and environmental norms (ISO 14001, OSHA)	Zero non-compliance	EHS / Quality
13. Continuous Improvement	Kaizen, Lean, 5S, defect reduction, and training programs	Minimum 2 projects per quarter	Management / All Departments
